

At The Prescott School, we pride ourselves on our diverse and supportive curriculum. Our SMSC lessons continue to evolve and develop in light of student needs and current issues. To enhance this curriculum and enrich the student experience, we placed 5 timely, learn for life days within the curriculum. On these days, all students take part in lessons and workshops on the theme of the day.

# Learn for Life Days

2020-2023

## Summer Term 2

As the end of the school year nears; and summertime means lighter, longer nights; crimes and incidents in the community often rise. This day is in place to highlight the people that live and work in our local community and our responsibility towards them and the area that we live in.

Community Lives Day

Global Lives Day

## Summer Term 1

Many Global issues are covered within Geography and Science lessons within the year, this day will enable all departments to extend on this provision and engage outside practitioners to work with groups of students to provide a more enriched experience. The day will vary in content depending on current issues going on at the time.

Summer Term

## Spring Term 1

Many careers events fall at this time of year in the calendar. Particularly National Careers week and then pupils also start to make option choices for their GCSE courses. Their SMSC lessons at this time reflect this and the working lives day is set up to provide students with a more enriched experience with the chance to work with outside practitioners and employers.

Working Lives Day

## Spring Term 2

Students will reflect at this point in the year, developing a positive outlook on our school community and the diversity within. Tolerance and acceptance of differences will be recapped from previous lessons and then issues covered on the day will be formed through staff and student voice surveys at the start of the year.

Diverse Lives Day

Spring Term

## Autumn term

In the first term of the year, SMSC lessons cover all of the personal health topics ranging from relationships to illness and mental health. Our healthy lives day gives us the chance to dedicate a lengthened and more valuable time to these topics. The emphasis for the day may change yearly depending on issues and topics that may arise that we feel would benefit for a more concentrated approach. For example, our 2020 Healthy Lives day was dedicated solely to mental health and wellbeing.
