

# Why do I need Numeracy?

Numeracy is embedded into all subjects curriculums. The aim is to develop students confidence in these areas to help unlock their academic and human potential.

## What **transferrable** skills will I gain?

	<p><b>Communication</b> <i>Listening and responding to others</i></p>
	<p><b>Critical Thinking</b> <i>Analysis and evaluation to solve problems</i></p>
	<p><b>Quantative Reasoning</b> <i>Using reason and logic to understand concepts</i></p>
	<p><b>Analytical Thinking</b> <i>Applying logic to unpick and evaluate</i></p>
	<p><b>Problem Solving</b> <i>Finding and implementing solutions</i></p>

## What **qualities** will I develop?

	<p><b>Logical Minds</b> <i>You will think about and change your own performance</i></p>
	<p><b>Self Motivated</b> <i>Understand the importance of working hard for your own gain</i></p>
	<p><b>Self-Reflective, Resilient and Adaptable</b> <i>You will think about and change your own performance</i></p>
	<p><b>Independence</b> <i>Understand the importance of working hard for your own gain</i></p>
	<p><b>Curious and Inquisitive</b> <i>Ask your own questions; find your own answers</i></p>
